Unit: Unit 1 — The Global Tapestry

Period: c. 1200–1450

Theme: GOV — Governance

Skill: Sourcing and Situation

Prompt:

Originalized court chronicle, Delhi Sultanate, c. 1325: “The sultan ordered the revenue officers to measure the fields and record the cultivators. Persian scribes prepared the registers, while judges heard disputes in the market quarter. Commanders were granted assignments so that cavalry would be ready when summoned.” What was the most likely purpose of the chronicle?

- A) To argue that the sultanate was governed by independent merchant guilds
- B) To show that South Asia had no bureaucratic traditions after 1200
- C) To present the sultan as a ruler who maintained taxation, justice, and military order
- D) To promote the replacement of agrarian taxation with factory wages

Secondary-source description of Mayapan in the Yucatán, c. 1250–1450: “A walled city contained temples, elite residences, markets, and neighborhoods linked to nearby maize fields. Archaeologists have found obsidian blades from highland sources and cacao residues in vessels.” Obsidian blades most directly illustrate which relationship between technology and exchange?

- A) Metallurgy ended the use of stone tools in all regions before 1200.
- B) Specialized tools and valued materials could circulate through regional exchange networks.
- C) The Americas imported all tools from Afro-Eurasia before 1450.
- D) Obsidian was used only in oceanic navigation.

APWH-MCQ5-009

Section: MCQ

Type: mcq

Unit: Unit 2 — Networks of Exchange

Period: c. 1200–1450

Theme: ENV — Humans and the Environment

Skill: Quantitative, Map, or Data Interpretation

Prompt:

Described map: “A map of the central Sahara c. 1300 marks caravan routes linking Sijilmasa, Taghaza, Takedda, and Hausa towns. Symbols show salt blocks moving south, copper and textiles moving across oasis towns, and camel caravans stopping near wells.” Which conclusion is best supported by the map?

- A) Desert environments shaped trade through oases, wells, and camel transport.
- B) Saharan trade depended on steam-powered railroads.
- C) Hausa towns were isolated from transregional exchange.
- D) Salt moved mainly from forest regions to Mediterranean ports.
